## interVivos launches **Winter 2019 Mentorship Program**

---

*Registration for Protégés Now Open*

Edmonton, AB, November 19, 2019: interVivos is launching its Winter 2019 Mentorship Program on Tuesday, December, 10 2019. interVivos is inviting ambitious professionals from across the capital region to take part in its ever-popular mentorship program and have the opportunity to connect with highly sought-after mentors.

interVivos has organized close to 20 mentorship programs since the society started in 2006. This year interVivos will provide protégés the opportunity to be paired with successful leaders with varied careers, backgrounds and perspectives.

The Mentorship Program launch is a unique and engaging concept. Protégés and mentors will have the opportunity to meet with all the participants, discuss what their goals are in person, and then choose who the best match would be for them.

“Allowing our participants the choice, increases the likelihood that the partnership will be fruitful for everyone involved,” says Board President, Zohreh Saher.

The program launches December 10, 2019 and begins in early January. It runs for 6 months and matches are expected to meet at least three times. If you’re an ambitious professional in the capital region, you can learn more about the program and register as a protégé by visiting <https://bit.ly/2XHniyl>.

The following are the confirmed mentors for the Winter 2019 mentorship program:
